

PAPER MOSAIC

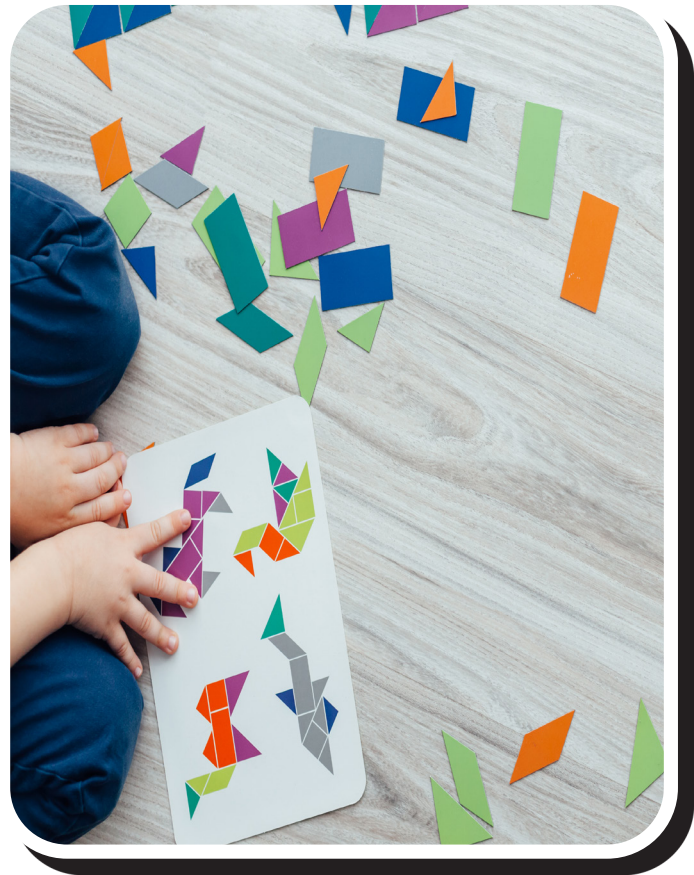

This is a fun and easy project for the kids to do using materials that can be found at home.

YOU'LL NEED:

- A3 or A4 white cardstock paper
- Coloured paper
- Scissors
- Pencil
- Gluestick

STEPS:

1. Using coloured paper, cut out small square, rectangle and triangle shapes.
2. Now on the white cardstock paper, draw the outline of a picture. For example, your favourite animal.
3. Next, glue in the coloured shapes within the outline of the drawing.

Tip:

- Use an empty photo frame or small piece of wood for the base instead.
- You can also use pieces of coloured plastic, film or newspaper scraps for the mosaic pieces.

All projects should be carried out under competent adult supervision and using appropriate equipment.
