

STARS IN A JAR

This is a fun and easy project for the kids to do using materials that can be found at home.

YOU'LL NEED:

- Empty glass jar or bottle
- LED fairy/string lights (battery operated)

HOW TO:

Clean an empty glass jar and decorate with fairy lights. These make a great accessory for a bedroom or dinner table during Matariki celebrations.

Tip:

Hide the battery pack by taping or gluing to the lid of the jar for a neater finish.

All projects should be carried out under competent adult supervision and using appropriate equipment.
